Presbyterian Assembly to Consider Charlotte Agreement
Next Monday.

PRESBYTERY VOTE 50 TO 29

BIRMINGHAM, ALA., May 17.—A flood of overtures from the various presbyteries were referred to committees at today's session of the Forty-seventh General Assembly of the Presbyterian Church in the United States. Many of the overtures related to the proposed articles of agreement.

An overture from the Mangum, Okla. Presbytery, which has just been formed, asked that another synod be organized to consist of the presbyteries of Mangum, Indian and Durant. The synod of Arkansas overtured the assembly to appoint an ad interim committee, whose duty it shall be to make an exhaustive study of the entire system of church government with a view to effecting such changes as will give the synod "its logical, natural and rightful place in the line of church courts and rescue it from its present anomalous and awkward position out of that line."

The East Hanover Presbytery, of Paris, Tenn., proposes certain amendments to the constitution with a view to providing a mode of effecting organic union with other bodies. The presbytery of Fort Worth, Texas, for relief in the matter of the anomalous condition of the church and foreign mission work by removing the stigma of at least a seeming approval of polygamy. An overture from Louisville, Ky., invites the general assembly to meet in that city in 1908. It is understood that Charlotte, N. C., Montreat, N. C., and Houston, Texas, want the next assembly. An overture from the Lexington Presbytery seeks to have official inquiry made into the decline in the number of baptized. The Ouchitoe Presbytery wants The Hague Peace Conference indorsed.

Many overtures were introduced asking for the proper observance of the 400th anniversary of the birth of John Calvin.

The vote on the Charlotte agreement for closer relations was officially read. It showed that fifty presbyteries approved the articles, while twenty-nine disapproved. In four presbyteries no action was taken. A committee of one minister and one elder from each synod was appointed to pass upon the constitutionality of the articles of agreement, and also report on all overtures bearing on the subject. This committee will report Monday.

Death of A. S. Herndon.
Mr. A. S. Herndon died early yesterday morning at his residence, 304 East Clay Street, of hemorrhage of the brain, aged sixty-five years.

Mr. Herndon was born and reared in Pittsylvania county, Va. He moved to this city about eight years ago, and was connected with the tobacco trade, being a buyer for the Imperial Tobacco Company. He was a member of the Park Place Methodist Church, and a member of the Danville Lodge of Masons, of Danville, Va., and a member of Abou Ben Adhem Lodge of I. O. O. F., this city.

His wife was Miss Reeves, of Frankfort, Va. He leaves behind him five children—one son and four daughters—Lewis Sidney and Misses Mary, Nellie, and Josephine.

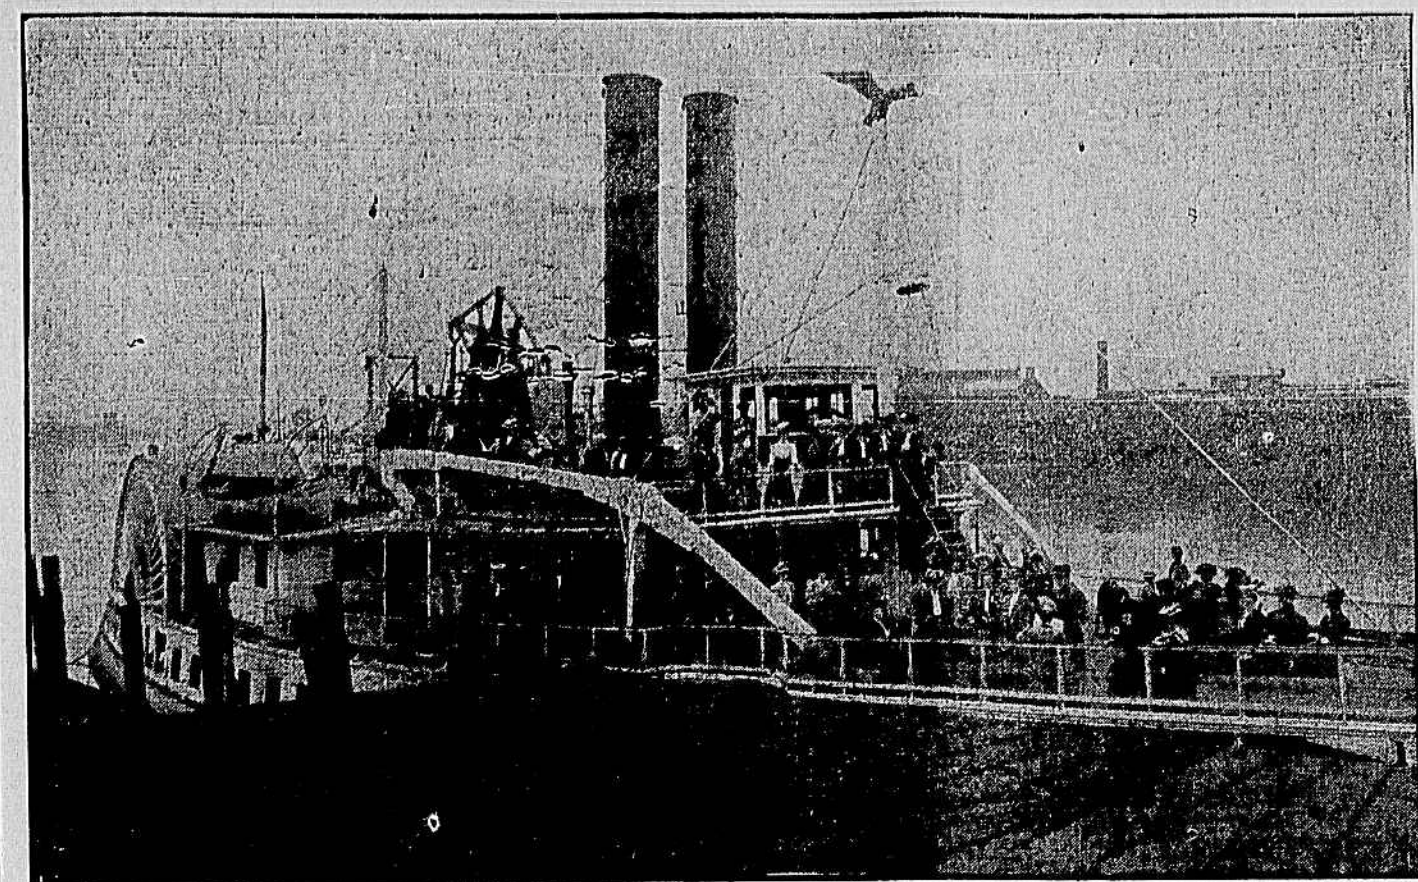

Herndon. He also leaves four brothers—Captain John Herndon, of Abingdon; Captain Joe Herndon, of H. Herndon, of Danville; and Thomas F. Herndon, of this city.

The funeral will take place from his late residence at 3:30 o'clock this afternoon. Services will be conducted by the Revs. Colonna and Simpson, of Park Place and Clay Street Methodist Churches. The following will act as pall-bearers: Messrs. J. A. Hutchinson, W. L. Petty, Silas Shelburne, W. L. Hazell, B. A. Davis, Jr., and Mr. Winfree. Interment will be in Riverside Cemetery.

Taxable Values.
Editor of The Times-Dispatch:

Sir,—As candidates are offering for our State Senate and House, I hope you will renew your efforts for a consideration of equalization of taxable values. Let me suggest that you write to the clerks of the counties through which the Tidewater Railway is building and the Norfolk and Western is double-tracking and ask for assessed values of land through which they pass and the value placed on same by commissioners appointed to condemn same. I know of instances where the farm is assessed for taxes at \$700, and as much as \$1,200 allowed for land taken by railway and an extra \$700 for damages. I don't care how high the damages are put, but it is no object to value being ten times greater than taxable value.

I would not want a railroad through my farm at any price, and wish there was not a mile in these United States; for they have destroyed the country and built up towns and flooded our fair land with a most undesirable class of immigrants. I speak of the country at large.

DRAMATIC SCENES IN
AUDITORIUM AT NIGHT

(Continued from Second Page.)

submitted the report on the financial exhibit of the foreign mission board. Though rejoicing in the larger contributions of the past year, amounting to more than \$100,000, the report called attention to the fact that, considering the large number of Baptists in the South, the per capita subscription was very small.

Dr. Willingham introduced as the first speaker Mr. P. H. Anderson, of Kentucky, a young man who is soon to go to China as a missionary. Mr. Anderson spoke but briefly, and told why he had been led to go to China to carry the gospel to the benighted heathen.

Bailey and Truett Speak.
Mr. J. W. Bailey, of North Carolina, was the next speaker. Mr. Bailey has been for several years the editor of the Biblical Recorder, but has recently sold the plant for the purpose of entering a law office. In introducing him to speak on "The Laymen's Interest in Missions," Dr. Willingham said he was going to present a man who some say is to be a Senator or a Governor or both.

Dr. George B. Truett, of Texas, was the next speaker. In introducing him Dr. Willingham told a thrilling story of the work of the foreign mission board on the night of April 30th. It had been decided that if enough money came in to pay all the bills of the missionaries the glad tidings. Late at night when the question was set to be settled there came a telegram from Texas authorizing a draft for a large amount and the board was able to cable the word "Victory."

Speaker of the Evening.
Dr. Willingham next introduced Mr. W. Brooks, of Rome, Ga., whom he described as "an old schoolmate of mine whom I have known and loved for many long years."

In a plain, practical way Mr. Brooks figured out how the Baptist church membership of the South was able and ought to relieve the foreign mission board of all embarrassment for at least ten years to come. His proposition was that a kind of guarantee fund of \$1,000,000 per year be provided for the board, a hundred men to pledge themselves and their estates for \$3,000 per year for a period of ten years; a hundred more for, say, \$3,000 per year; a hundred more for less amounts, from \$500 up, and then the general contribution would come in to settle the whole matter on business principles that the board could rely upon from year to year, and relieve it of embarrassment and anxiety.

Gift of \$50,000.
Mr. Brooks discussed the plan in detail and endeavored to show its feasibility and practicability, and then simply electrified the convention and the audience by quietly announcing that he would ask none to follow where he would not lead, and he would give \$50,000 to foreign missions, payable in sums of \$5,000 per year for a period of ten years. The announcement coming so quietly, and in such a plain common-sense and businesslike way was hardly taken in by those who heard it, and Dr. Willingham rushed to the platform and in his strong voice, which can be heard all over the Auditorium, acoustics or no acoustics, said: "Men

and brethren, I am afraid you did not hear this brother. Do you realize that he has given \$50,000 to foreign missions?" It seemed that the momentous fact was not realized until Dr. Willingham had made it plain, but then there was a sensation indeed. Old members of the convention looked at each other in amazement, and then they commenced shaking hands, and finally broke out singing "Praise God from Whom All Blessings Flow."

Dr. Willingham, who never loses an opportunity to say a word for missions, seemed to be especially inspired for the occasion, and that million-dollar idea seemed to have gone all through his entire soul. He spoke feelingly, and wanted to know if there were any men in the convention who wanted to come in on that ten-year guarantee proposition. Dr. Mayfield, of St. Louis, pledged \$2,000 per year for ten years, and another gentleman, who was too modest to make his name public, but assured Dr. Willingham that he would report to him all right, went down for a like amount. Another modest gentleman, for whom a well-known Texas pastor was willing to stand, agreed to \$1,000 per year. Six other men pledged themselves to provide for the annual support of a missionary (\$500 per year) for ten years. Altogether, something like \$120,000 were pledged to foreign missions within a quarter of an hour.

Dr. Willingham thought he saw the million a year, and his next thought was to say a word for the foreign mission work in the Southern Baptist Convention. Certain it is that never before in this, or so far as history informs any one, in any other convention of church people was there such real enthusiasm aroused. It is believed by the members of the convention that there is no longer any doubt that the flame that was started last night in the convention will grow and spread until the fires throughout the territory of the Southern Baptist brotherhood will blaze on every hilltop and in every valley, and that the round million dollars for foreign missions will be readily raised this year.

PERSONAL AND GENERAL.
At the tobacco exhibition in London some women made cigarettes at the rate of 120 in thirty minutes.

Paris cab horses work only every other day, and are fed on the days they work only, not on the days they "rest."

The Rev. J. C. Cox, who rowed in the university eight in the race of 1842, when Oxford won its first victory on the Thames, has just died, at the age of eighty-seven.

Housemen and houseboys are being introduced with great success in houses in Melbourne to alleviate the domestic servant problem. Boys, it is found, work more quickly than girls.

Albert Roach, of New London, Conn., has recently been retired after having served sixty-two years in railroad on the Shore Division of the New York, New Haven and Hartford Railroad.

Francisco Jose, who was born in 1788, is still alive and at work, and a good shot with the rifle, at Oporto, Portugal. He served in the Portuguese army, which in 1810 opposed the invasion of the French under Napoleon I.
